Index to Volume 7

1 is the Winter 1996/97 issue
2 is the Spring 1997 issue
3 is the Summer 1997 issue
4 is the Autumn 1997 issue

AUTHORS

Adams, Kortney, and Gibson, Kathleen C. Brownfields—A Status Report on Recent Developments, No. 3, 131–140

Azadpour, Azadeh, Powell, Patricia D., and Matthews, John. Use of Lignin Degrading Fungi in Bioremediation, No. 4, 25-49

Booth, Steven R., and Cummings, Mark. Remediation of Uranium-Contaminated Soil Using the Segmented Gate System and Containerized Vat Leaching Techniques: A Cost-Effectiveness Study, No. 1, 1–14

Bradford, Mike, and Sadhukhan, Pasupati. Thermal Treatment and Decontamination of Mercury-Contaminated Waste: Recent Development and Comparative Evaluation, No. 4, 17–24

Brown, James R., Myers, Vernon B., Parker, Susan G., and Stewart, Robert. Rehabilitation of the Chernoistochinskii Drinking Water System, Nizhnii Tagil, Russia, No. 2, 83–106

Bryant, Christopher R. EPA Releases Latest Agency Hazardous Waste Compliance, No. 4, 105-107

Bryant, Christopher R. EPA Strives for "Parity" between RCRA and CERCLA Programs, No. 1, 119–121

Bryant, Christopher R. New Alternatives and Guidance for Management of Materials Contaminated with Cesium-137, No. 3, 127–129

Bryant, Christopher R. Significant Regulatory Developments in CERCLA, No. 2, 141–145

Bryda, Anthony P., and Bryda, Lisa K. Status and Potential Future of Risk-Based Corrective Action (RBCA) at Contaminated Sites, No. 2, 147–157

Bryda, Lisa K., and Bryda, Anthony P. Status and Potential Future of Risk-Based Corrective Action (RBCA) at Contaminated Sites, No. 2, 147–157

Bryda, Lisa K., and Morris, Peter E. Emerging Technologies for In-Situ Groundwater Remediation, No. 3, 109–126

Buchanan, Ronald J., Ellis, David E., Shoemaker, Stephen H., and Quinton, Gary E. A Method To Compare Groundwater Cleanup Technologies, No. 4, 7–16

Cameron, Kirk. RCRA Leapfrog: How Statistics Shape and in Turn Are Shaped by Regulatory Mandates, No. 1, 15–26

Conger, Robert Mark, and Portier, Ralph J. Phytoremediation Experimentation with the Herbicide Bentazon, No. 2, 19–38

Cosentini, Chris, Ronning, Tedd, Larsen, Mark, and Stroo, Hans. Natural Biodegradation of Wood Preservatives, No. 4, 77–93

Cummings, Mark, and Booth, Steven R. Remediation of Uranium-Contaminated Soil Using the Segmented Gate System and Containerized Vat Leaching Techniques: A Cost-Effectiveness Study, No. 1, 1–14

Davis, John W., West, Jobert J., and Klecka, Gary M. Enhanced Land Treatment of Petroleum-Contaminated Soils Using Solid Peroxygen Materials, No. 2, 67–82

Davis, Michael J., Janke, Robert J., and Folga, Stephen. Unit Costs for Decontamination and Dismantlement of Structures, No. 2, 1–19

Duran, David, and Odencrantz, Joseph E. Integration of RBCA Frameworks and Remediation Technologies, No. 3, 97–108

Durham, Lisa, Williams, Gustavious, Robbat, Albert, Jr., Johnson, Robert, and Quinn, John. Adaptive Sampling and Analysis Programs for Contaminated Soils, No. 3, 81–96

Dutta, Subijoy, and Robinson, Bonnie B. Best

Management Practices To Prevent Cross-Media Transfers during Soil Cleanup, No. 2, 39–66

Ellis, David E., Shoemaker, Stephen H., Quinton, Gary E., and Buchanan, Ronald J. A Method To Compare Groundwater Cleanup Technologies, No. 4, 7–16

Elmore, Andrew Curtis, and Vandeberg, Mark A. Using Uncertainty Analysis To Reduce Costs at a Pump-and-Treat Site, No. 3, 5–22

Folga, Stephen, Davis, Michael J., and Janke, Robert J. Unit Costs for Decontamination and Dismantlement of Structures, No. 2, 1–19

Fox, Catherine A. EPA's Superfund National Remedy Review Board, No. 3, 141–144

Fox, Catherine A. Hazardous Substance Research Centers: An Overview of Collaborators and New Research Initiatives, No. 2, 159–162

Fox, Catherine A. Public/Private Partnerships for More Effective Cleanup of Contaminated Sites, No. 1, 129–132

Gabel, Andrew D., Hong, Kou-John, Moos, Lawrence, and Yu, Charley. Radiological Risks and Cleanup Costs: A Remediation Case Study, No. 3, 23–38

Gampel, Mindy. Influences on RCRA Corrective Action Costs for Nonfederal Facilities, No. 1, 87–104

Gibbons, Robert D. Stalking the RCRA Leapfrog, No. 1, 27–30

Gibson, Kathleen C., and Adams, Kortney. Brownfields—A Status Report on Recent Developments, No. 3, 131–140

Haugse, A. Leonard, Soundararajan, R., and Lee, O. Lawrence. The Impact of High Level Gamma Radiation on Immobilized Waste Forms in Polymeric Matrices, No. 4, 59–76

Henriksen, Anne D. Two Decision Analysis Approaches: Choosing a Chemical Analysis Method, No. 3, 39–62

Hirschorn, Joel S. Cleanup Levels for Dioxin-Contaminated Soils, No. 3, 63–80

Hirschorn, Joel S. Environmental Deficits, No. 4, 1–6

Hogan, Brian J., and Painter, Jennifer P. The Trade-Off between Assessment and Cleanup Phases of Remediation Projects, No. 1, 105–118

Hong, Kou-John, Moos, Lawrence, Yu, Charley, and Gabel, Andrew D. Radiological Risks and Cleanup Costs: A Remediation Case Study, No. 3, 23–38

Janke, Robert J., Folga, Stephen, and Davis, Michael J. Unit Costs for Decontamination and Dismantlement of Structures, No. 2, 1–19

Johnson, Robert, Quinn, John, Durham, Lisa, Williams, Gustavious, and Robbat, Albert, Jr. Adaptive Sampling and Analysis Programs for Contaminated Soils, No. 3, 81–96

Jones-Lee, Anne, and Lee, G. Fred. Hazardous Chemical Site Remediation Through Capping: Problems with Long-Term Protection, No. 4, 51–57

Kelly, Brian A. New Regulatory Structure Being Considered for Devices Containing Radioactivity, No. 4, 95–103

Kimzey, Doug. Primer on GRITS/STAT 5.0, No. 1, 47–86

Klecka, Gary M., Davis, John W., and West, Jobert J. Enhanced Land Treatment of Petroleum-Contaminated Soils Using Solid Peroxygen Materials, No. 2, 67–82

Larsen, Mark, Stroo, Hans, Cosentini, Chris, and Ronning, Tedd. Natural Biodegradation of Wood Preservatives, No. 4, 77–93

Lee, G. Fred, and Jones-Lee, Anne. Hazardous Chemical Site Remediation Through Capping: Problems with Long-Term Protection, No. 4, 51–57

Lee, O. Lawrence, Haugse, A. Leonard, and Soundararajan, R. The Impact of High Level Gamma Radiation on Immobilized Waste Forms in Polymeric Matrices, No. 4, 59–76

McCutcheon, Steven C., and Medina, Victor F. Phytoremediation: Modeling Removal of TNT and Its Breakdown Products, No. 1, 31–46

Matthews, John, Azadpour, Azadeh, and Powell, Patricia D. Use of Lignin Degrading Fungi in Bioremediation, No. 4, 25–49

Medina, Victor F., and McCutcheon, Steven C. Phytoremediation: Modeling Removal of TNT and Its Breakdown Products, No. 1, 31–46

Moos, Lawrence, Yu, Charley, Gabel, Andrew D., and Hong, Kou-John. Radiological Risks and Cleanup Costs: A Remediation Case Study, No. 3, 23–38

Morris, Peter E., and Bryda, Lisa K. Emerging Technologies for In-Situ Groundwater Remediation, No. 3, 109–126

Myers, Vernon B., Parker, Susan G., Stewart, Robert, and Brown, James R. Rehabilitation of the

Chernoistochinskii Drinking Water System, Nizhnii Tagil, Russia, No. 2, 83–106
Odencrantz, Joseph E., and Duran, David. Integration of RBCA Frameworks and Remediation Technologies, No. 3, 97–108
Painter, Jennifer P., and Hogan, Brian J. The Trade-Off between Assessment and Cleanup Phases of Remediation Projects, No. 1, 105–118
Parker, Susan G., Stewart, Robert, Brown, James R., and Myers, Vernon B. Rehabilitation of the Chernoistochinskii Drinking Water System, Nizhnii Tagil, Russia, No. 2, 83–106
Portier, Ralph J., and Conger, Robert Mark. Phytoremediation Experimentation with the Herbicide Bentazon, No. 2, 19–38
Portier, Ralph J., and Smith, Tracy G. A Risk Assessment of Chlorinated Aliphatics in Bioremediated Soils, No. 2, 107–132
Powell, Patricia D., Matthews, John, and Azadpour, Azadeh. Use of Lignin Degrading Fungi in Bioremediation, No. 4, 25–49
Quinn, John, Durham, Lisa, Williams, Gustavious, Robbat, Albert, Jr., and Johnson, Robert. Adaptive Sampling and Analysis Programs for Contaminated Soils, No. 3, 81–96
Quinton, Gary E., Buchanan, Ronald J., Ellis, David E., and Shoemaker, Stephen H. A Method To Compare Groundwater Cleanup Technologies, No. 4, 7–16
Robbat, Albert, Jr., Johnson, Robert, Quinn, John, Durham, Lisa, and Williams, Gustavious. Adaptive Sampling and Analysis Programs for Contaminated Soils, No. 3, 81–96
Robinson, Bonnie B., and Dutta, Subijoy. Best Management Practices To Prevent Cross-Media Transfers during Soil Cleanup, No. 2, 39–66
Ronning, Tedd, Larsen, Mark, Stroo, Hans, and Cosentini, Chris. Natural Biodegradation of Wood Preservatives, No. 4, 77–93
Sadhukhan, Pasupati, and Bradford, Mike. Thermal Treatment and Decontamination of Mercury-Contaminated Waste: Recent Development and Comparative Evaluation, No. 4, 17–24
Schaaf, Lesley-Anne. Environmental Legislative Accomplishments: The 104th Congress in Review and a Look at What's Ahead, No. 2, 133–140
Shoemaker, Stephen H., Quinton, Gary E., Buchanan, Ronald J., and Ellis, David E. A Method To Compare Groundwater Cleanup Technologies, No. 4, 7–16
Simon, John A. Eliminating Environmental Liabilities by Transferring Ownership of Contaminated Properties, No. 1, 123–128
Simon, John A. Technical Aspects Affecting the Future of the Remediation Industry, No. 4, 109–115
Smith, Tracy G., and Portier, Ralph J. A Risk Assessment of Chlorinated Aliphatics in Bioremediated Soils, No. 2, 107–132
Soundararajan, R., Lee, O. Lawrence, and Haugse, A. Leonard. The Impact of High Level Gamma Radiation on Immobilized Waste Forms in Polymeric Matrices, No. 4, 59–76
Stewart, Robert, Brown, James R., Myers, Vernon B., and Parker, Susan G. Rehabilitation of the Chernoistochinskii Drinking Water System, Nizhnii Tagil, Russia, No. 2, 83–106
Stroo, Hans, Cosentini, Chris, Ronning, Tedd, and Larsen, Mark. Natural Biodegradation of Wood Preservatives, No. 4, 77–93
Vandeberg, Mark A., and Elmore, Andrew Curtis. Using Uncertainty Analysis To Reduce Costs at a Pump-and-Treat Site, No. 3, 5–22
West, Jobert J., Klecka, Gary M., and Davis, John W. Enhanced Land Treatment of Petroleum-Contaminated Soils Using Solid Peroxygen Materials, No. 2, 67–82
Williams, Gustavious, Robbat, Albert, Jr., Johnson, Robert, Quinn, John, and Durham, Lisa. Adaptive Sampling and Analysis Programs for Contaminated Soils, No. 3, 81–96
Yu, Charley, Gabel, Andrew D., Hong, Kou-John, and Moos, Lawrence. Radiological Risks and Cleanup Costs: A Remediation Case Study, No. 3, 23–38

ASSESSMENT

The Trade-Off between Assessment and Cleanup Phases of Remediation Projects, Jennifer P. Painter and Brian J. Hogan, No. 1, 105–118

BIOREMEDIATION

A Risk Assessment of Chlorinated Aliphatics in Bioremediated Soils, Tracy G. Smith and Ralph J. Portier, No. 2, 107–132
Use of Lignin Degrading Fungi in Bioremediation, Azadeh Azadpour, Patricia D. Powell, and John Matthews, No. 4, 25–49

CHEMICAL SITE REMEDIATION
Hazardous Chemical Site Remediation Through Capping: Problems with Long-Term Protection, G. Fred Lee and Anne Jones-Lee, No. 4, 51–57

CLEANUP
Cleanup Levels for Dioxin-Contaminated Soils, Joel S. Hirschorn, No. 3, 63–80
Radiological Risks and Cleanup Costs: A Remediation Case Study, Kou-John Hong, Lawrence Moos, Charley Yu, and Andrew D. Gabel, No. 3, 23–38
The Trade-Off between Assessment and Cleanup Phases of Remediation Projects, Jennifer P. Painter and Brian J. Hogan, No. 1, 105–118

CORRECTIVE ACTION COSTS
Influences on RCRA Corrective Action Costs for Nonfederal Facilities, Mindy Gampel, No. 1, 87–104

COST EFFECTIVENESS
Remediation of Uranium-Contaminated Soil Using the Segmented Gate System and Containerized Vat Leaching Techniques: A Cost-Effectiveness Study, Mark Cummings and Steven R. Booth, No. 1, 1–14

COSTS
Environmental Deficits, Joel S. Hirschorn, No. 4, 1–6
Radiological Risks and Cleanup Costs: A Remediation Case Study, Kou-John Hong, Lawrence Moos, Charley Yu, and Andrew D. Gabel, No. 3, 23–38
Unit Costs for Decontamination and Dismantlement of Structures, Stephen Folga, Michael J. Davis, and Robert J. Janke, No. 2, 1–19
Using Uncertainty Analysis To Reduce Costs at a Pump-and-Treat Site, Andrew Curtis Elmore and Mark A. Vandeberg, No. 3, 5–22

CROSS-MEDIA TRANSFERS
Best Management Practices To Prevent Cross-Media Transfers during Soil Cleanup, Subijoy Dutta and Bonnie B. Robinson, No. 2, 39–66

DECISION ANALYSIS
Two Decision Analysis Approaches: Choosing a Chemical Analysis Method, Anne D. Henriksen, No. 3, 39–62

DECONTAMINATION
Unit Costs for Decontamination and Dismantlement of Structures, Stephen Folga, Michael J. Davis, and Robert J. Janke, No. 2, 1–19

DISMANTLEMENT OF STRUCTURES
Unit Costs for Decontamination and Dismantlement of Structures, Stephen Folga, Michael J. Davis, and Robert J. Janke, No. 2, 1–19

DRINKING WATER
Rehabilitation of the Chernoistochinskii Drinking Water System, Nizhnii Tagil, Russia, James R. Brown, Vernon B. Myers, Susan G. Parker, and Robert Stewart, No. 2, 83–106

GROUNDWATER
Emerging Technologies for In-Situ Groundwater Remediation, Lisa K. Bryda and Peter E. Morris, No. 3, 109–126
A Method To Compare Groundwater Cleanup Technologies, Gary E. Quinton, Ronald J. Buchanan, David E. Ellis, and Stephen H. Shoemaker, No. 4, 7–16
Primer on GRITS/STAT 5.0, Doug Kimzey, No. 1, 47–86

LEGISLATION
Environmental Legislative Accomplishments: The 104th Congress in Review and a Look at What's Ahead, Lesley-Anne Schaaf, No. 2, 133–140

MERCURY
Thermal Treatment and Decontamination of Mercury-Contaminated Waste: Recent Development and Comparative Evaluation, Pasupati Sadhukhan and Mike Bradford, No. 4, 17–24

NATURAL BIODEGRADATION
Natural Biodegradation of Wood Preservatives, Hans Stroo, Chris Cosentini, Tedd Ronning, and Mark Larsen, No. 4, 77–93

PETROLEUM-CONTAMINATED SOILS
Enhanced Land Treatment of Petroleum-Contaminated Soils Using Solid Peroxygen Materials, John W. Davis, Jobert J. West, and Gary M. Klecka, No. 2, 67–82

PHYTOREMEDIATION

Phytoremediation: Modeling Removal of TNT and Its Breakdown Products, Victor F. Medina and Steven C. McCutcheon, No. 1, 31–46

Phytoremediation Experimentation with the Herbicide Bentazon, Robert Mark Conger and Ralph J. Portier, No. 2, 19–38

RADIOACTIVE WASTE

The Impact of High Level Gamma Radiation on Immobilized Waste Forms in Polymeric Matrices, R. Soundararajan, O. Lawrence Lee, and A. Leonard Haugse, No. 4, 59–76

New Regulatory Structure Being Considered for Devices Containing Radioactivity, Brian A. Kelly, No. 4, 95–103

RADIOLOGICAL RISKS

Radiological Risks and Cleanup Costs: A Remediation Case Study, Kou-John Hong, Lawrence Moos, Charley Yu, and Andrew D. Gabel, No. 3, 23–38

RCRA

Influences on RCRA Corrective Action Costs for Nonfederal Facilities, Mindy Gampel, No. 1, 87–104

RCRA Leapfrog: How Statistics Shape and in Turn Are Shaped by Regulatory Mandates, Kirk Cameron, No. 1, 15–26

Stalking the RCRA Leapfrog, Robert D. Gibbons, No. 1, 27–30

RECENT DEVELOPMENTS IN CLEANUP TECHNOLOGIES

Brownfields—A Status Report on Recent Developments, Kathleen C. Gibson and Kortney Adams, No. 3, 131–140

Eliminating Environmental Liabilities by Transferring Ownership of Contaminated Properties, John A. Simon, No. 1, 123–128

Status and Potential Future of Risk-Based Corrective Action (RBCA) at Contaminated Sites, Lisa K. Bryda and Anthony P. Bryda, No. 2, 147–157

Technical Aspects Affecting the Future of the Remediation Industry, John A. Simon, No. 4, 109–115

RECENT DEVELOPMENTS IN LAWS AND REGULATIONS

EPA Releases Latest Agency Hazardous Waste Compliance, Christopher R. Bryant, No. 4, 105–107

EPA Strives for "Parity" between RCRA and CERCLA Programs, Christopher R. Bryant, No. 1, 119–121

New Alternatives and Guidance for Management of Materials Contaminated with Cesium-137, Christopher R. Bryant, No. 3, 127–129

Significant Regulatory Developments in CERCLA, Christopher R. Bryant, No. 2, 141–145

RECENT DEVELOPMENTS IN POLICY AND SCIENCE

EPA's Superfund National Remedy Review Board, Catherine A. Fox, No. 3, 141–144

Hazardous Substance Research Centers: An Overview of Collaborators and New Research Initiatives, Catherine A. Fox, No. 2, 159–162

Public/Private Partnerships for More Effective Cleanup of Contaminated Sites, Catherine A. Fox, No. 1, 129–132

RISK ASSESSMENT

A Risk Assessment of Chlorinated Aliphatics in Bioremediated Soils, Tracy G. Smith and Ralph J. Portier, No. 2, 107–132

RISK REDUCTION TECHNOLOGY

Integration of RBCA Frameworks and Remediation Technologies, Joseph E. Odencrantz and David Duran, No. 3, 97–108

SOIL CONTAMINATION

Adaptive Sampling and Analysis Programs for Contaminated Soils, Robert Johnson, John Quinn, Lisa Durham, Gustavious Williams, and Albert Robbat, Jr., No. 3, 81–96

Best Management Practices To Prevent Cross-Media Transfers during Soil Cleanup, Subijoy Dutta and Bonnie B. Robinson, No. 2, 39–66

Cleanup Levels for Dioxin-Contaminated Soils, Joel S. Hirschorn, No. 3, 63–80

Enhanced Land Treatment of Petroleum-Contaminated Soils Using Solid Peroxygen Materials, John W. Davis, Jobert J. West, and Gary M. Klecka, No. 2, 67–82

Remediation of Uranium-Contaminated Soil Using the

Segmented Gate System and Containerized Vat Leaching Techniques: A Cost-Effectiveness Study, Mark Cummings and Steven R. Booth, No. 1, 1–14

THERMAL TREATMENT

Thermal Treatment and Decontamination of Mercury-Contaminated Waste: Recent Development and Comparative Evaluation, Pasupati Sadhukhan and Mike Bradford, No. 4, 17–24

TNT REMOVAL

Phytoremediation: Modeling Removal of TNT and Its Breakdown Products, Victor F. Medina and Steven C. McCutcheon, No. 1, 31–46

UNCERTAINTY ANALYSIS

Using Uncertainty Analysis To Reduce Costs at a Pump-and-Treat Site, Andrew Curtis Elmore and Mark A. Vandeberg, No. 3, 5–22
